## 8<sup>TH</sup> RENAISSANCE MEETING – 10/1/2009 – 10/2/2009

### RENAISSANCE ZARAGOZA

#### WP 2.2: Quality Control and Performance.

José A. Turégano (GEE)  
UofZ

### WP 2.2 (Progress)

RENAISSANCE  
- ZARAGOZA -  
SPAIN

#### ✚ Quality Control and Performance.

- **UdZ** has directed its efforts in conjunction with **Endesa (EDE)** for:
  - ▶ including measures from electricity consumption in homes in order to create common approach with Lyon monitoring
  - ▶ getting enough information about the performance of buildings so that they can be confirmed analysis from simulation with experimental data, when appropriate
  - ▶ an important role in this control and performance of buildings will fall on the steps of thermography and infiltration

RENAISSANCE es un proyecto del programa CONCERTO co-financiado por la Comisión Europea dentro del Sexto Programa Marco

### + Quality Control and Performance

#### ► Future developments

##### ► 12 months scenario:

- First year of monitoring completed
- Use of results with a strong interaction with WP 1.5

##### ► 18 months scenario:

- More monitored data collected, that will allow better analysis on building performance
